

Nazi Propaganda Paper

For this assignment you will be reading excerpts from a Nazi textbook “Der Weg Zum Reich”, The Road to Empire. From what you know about the end of WWI, Hitler, and the Treaty of Versailles refute the points/ “history” in the text and identify the statements which are propaganda and why you believe they are propaganda. Use research to show the problems, inconsistencies, and propaganda from the text and refute them based on what you have learned and found through your own research. Keep in mind this is a piece of propaganda and to make it believable to the reader a little sprinkling of actual history is included, so be vigilante in identifying the propaganda. Make sure you include internal documentation in MLA style. In addition, make sure you have a bibliography of all works used for writing the paper. Half of the resources that you use for this project can be from the Internet the other 50% must be textbooks or other written resources. This exercise is worth 100 points. Good luck!
