

# INTERMEDIATE SCHOOL TIMES

May 2019

## Millionaire's for April

April showers brought in three millionaires, all from 5-8: Jared Cook, Dalton Bachman, and Talayah Rivera (a February millionaire).

The 5-8 trio of millionaires was joined by multimillionaires Joaquin Basu, 5-1, 6,000,000, Jenna Erdman, 5-1, 3,000,000, Carly Scorsone, 5-2, 3,000,000, Noah Scholl, 5-7, 3,000,000, and Genevieve Lyttle, 5-9, 4,000,000.

## Thank You

*Thank you, thank you, thank you to all the students and staff who've helped to improve our school-wide online reading program (ReadnQuiz) this year by creating quizzes! During our annual reading incentive, which ran from March 1<sup>st</sup> through April 30<sup>th</sup>, over 90% of our students took quizzes and earned almost 6,000 points! Each point earns one ticket for students in our Reading Raffle! A special shout-out and thank you to Tina Fry and Melissa Portzline who volunteered to create quizzes for our students! Melissa created 100 quizzes! What a great way to show support for our students' growth and learning, everyone! It is appreciated!*

## TEAMS RECEIVES NATIONAL RECOGNITION IN SCIENCE COMPETITION

Fourth and fifth grade student teams each received honorable mention recognition for their entries in the 2018-2019 Toshiba/NSTA (National Science Teacher Association) ExploraVision science and technology competition. This recognition places the teams in the top 10% of the entries submitted across the nation and the only 4<sup>th</sup> and 5<sup>th</sup> grade teams from Pennsylvania to be receive this acknowledgement.

*(Pictured left to right: 4<sup>th</sup> Graders - Jack Piecuch, Jaren Diehl;  
5<sup>th</sup> Graders - Leah Wright, Kelsey Persons, Elise Zimmerman, Quinn Emery)*

The fourth grader's entry, the SSS Drone, focused on a way to improve school safety by using drone technology to scan the perimeter around schools. The fifth grader's entry, the Genius Protection System, focused on using GPS silicone tracking stickers to enhance child safety.

The ExploraVision contest challenges students to envision and communicate how technology will evolve to solve problems 20 years in the future. Students research a current technology, imagine how it might change to solve a problem, and explain the breakthroughs that would need to happen over the next two decades to make their idea possible.
