The PHN Charitable Foundation (PHNCF) was established in 2005 to support the mission and goals of Primary Health Network, Pennsylvania's largest community health center.

We support this mission by raising funds to build and sustain programs that increase access to healthcare services and improve the health and quality of life in the communities Primary Health Network serves.

At the PHNCF, we believe that we must invest in our own future-the future of health care. We must ensure that there will always be well-trained doctors, nurses, technicians, and other healthcare professionals to provide the highest quality of care in our health centers. To support this belief, the PHNCF awards \$30,000 in academic scholarships to students pursuing a career in healthcare or allied health fields each year. Recipients have gone on to pursue careers as doctors, pharmacists, physician assistants, nurse practitioners, and more.
